

# TRANS & GENDER IDENTITY 101

## with DINA NINA MARTINEZ

Maneuvering an ever changing world full of gender and identity politics can be difficult and confusing.

This workshop will provide you with the information you need to esteem those who are transgender and gender non-conforming in your life and your organization.

Dina Nina Martinez's workshop is humorous and engaging. It provides the hard facts around the disparities that the trans and gender non-confirming people face on a daily basis. It will provide you with a vocabulary and understanding of how and how not to engage with those within the gender marginalized communities.

This workshop takes a multi-media and engagement approach to make a usually information dense and sometimes dull training and will give those attending a fun, entertaining and educational experience.

This workshop is perfect for:

- Companies & Corporations
- Community Organizations
- Student & Faculty Trainings
